

Process Title (3): Distribution of Animal Feed in the Provinces

Request from the distributing company/organization addressed to the Directorate of Agriculture of the relevant province.

Referral of the request to the Directorate of Livestock and Animal Health

Appointment of a sampling team by the Directorate of Livestock and Animal Health.

Submission of documents and the line agreement by the distributing company/institution to the General Directorate of Livestock Extension.

Collection and preparation of three samples in the presence of a representative from the distributing agency, with the warehouse seal applied, pending laboratory results.

Dispatch of two samples, accompanied by a formal letter, to the General Directorate of Livestock and Animal Health.

Referral to the Directorate of Livestock Services

Referral to the Animal Feed and Nutrition Extension Directorate.

Submission of a sample, accompanied by a formal letter from the Directorate of Livestock Services to the Directorate of Livestock Research, for laboratory analysis.

Forwarding of laboratory test results for the sample, enclosed with the official letter from the Directorate of Livestock Research to the General Directorate of Livestock and Animal Health.

Referral to the Directorate of Livestock Services

Referral to the Directorate of Animal Feed and Nutrition Extension.

Referral to the General Directorate for the Promotion of Forage and Concentrate Feed.

Technical review of laboratory results and comparison with contract specifications by the technical team, for the purpose of approving or rejecting the feed in question.

Forwarding the laboratory test results for the sample to the relevant province—either as an attachment to an official letter via the Provincial Affairs Department or directly through the manufacturing company.
